

British Columbia Secondary School Admission Requirements

All programs require a minimum admission average which may change, depending on the number of applicants. A second average is considered for students applying to Computer Science, Forensic Science, Mathematics, Engineering, Science and Nursing programs. The minimum second average is approximately 70%.

*Limited Enrolment **Combined programs only

Calculation of Secondary Averages

All programs require a minimum admission average which may change, depending on the number of applicants. A second average is considered for students applying for the following programs:

Computer Science/Math – average of math courses (70%)

Nursing – average of chemistry and biology (70%)

Engineering – average of all math and science courses except biology (74%)

Science – average of all attempted science and math courses (70%).

Forensics – average of all required science and math courses (70%)

The minimum admission requirement for all programs is secondary school graduation including English 12 and three additional approved examinable Grade 12 courses. Provincial exams are not required for any subject except for Grade 12 English. Faculty-specific prerequisites must be at the Grade 12 level. Applicants are encouraged to achieve as much breadth of preparation as possible in the courses of study leading to the High School Diploma while also meeting the stated admission requirements of the program to which application is being made.
